

Name: _____

Bacteria Wanted Poster

You task it to create a wanted poster for the bacteria that you draw randomly. Each of these bacteria are a pathogen which means it causes a disease. The wanted posters should look like the ones created by the police departments.

List of things to include:

- a photo of the bacteria
- what disease it causes
- description (including gram stain)
- most common victims to prey upon
- hide out of the culprit
- injury done to victim
- how dangerous the culprit is
- number of victims
- most effective weapons against the bacteria
- any other identifying or interesting characteristics

Grading will be done on the following:

Neatness	1	2	3	4	5
Creativity	1	2	3	4	5
Above information included	1	2	3	4	5
Effectiveness	1	2	3	4	5
