

Anatomy - Chapter 11 Vocabulary

angina pectoris	foramen ovale
arteriole	hepatic portal circulation
artery	mitral valve
atrioventricular valve	myocardial infarction
atrium	pacemaker
bicuspid valve	pericardium
capillary	pulmonary circulation
cardiac output	semilunar valve
cardiopulmonary resuscitation	sinoatrial node
coronary bypass surgery	systemic circulation
electrocardiogram	tricuspid valve
endocarditis	vein
endocardium	ventricle
epicardium	venule
