

## Responsibility Points

Each quarter you will be given 100 points that go towards 10% of your overall grade for the quarter. As long as you keep them they actually help your grade significantly! If you lose a lot of points it could drop your grade as much as a full letter (such as a B to a C). Generally, you will lose 5 points for a particular violation. Some violations will cause you to lose 10 at a time.
